|---|---|

**Name:** _____

- The finished work must be uploaded to the Connect submission page.

**[Part 1]**

In this project, you will explain one 'process' using Microsoft PowerPoint.

Firstly, we need to decide a topic. It can be about anything: how to do certain things, how certain things work, and so on.

My topic is:

_____

Then, you need to collect information about the topic. Fill in three things you know about the topic, and three things you would like to know about the topic. Complete the table **without using the computer**!
